Re: Notification of DSHEA nutritional support claim for AmeriFIT Androstenedione 100 Dietary Supplement

Dear Sir or Madam:

The purpose of this letter is to provide notification pursuant to section 403 (r)(6) of the Federal Food, Drug, and Cosmetic Act ("the Act") and 7 C.F.R. § 101.93 that AmeriFIT, Inc., is marketing a dietary supplement that bears a statement of nutritional support as defined in section 403 (r)(6) of the Act.

The labeling for Androstenedione 100 bears the following statements:

"Androstenedione 100 is a metabolite of dehydroepiandrosterone (DHEA) that serves as a direct precursor in the biosynthesis of testosterone (and is) used to supplement your body's natural androstenedione production"

AmeriFIT, Inc. has on file substantiation that the above statements are truthful and not misleading. To the best of my knowledge, the information contained in this notice is complete and accurate.

Sincerely,

Craig Larsen  
Director of Product Development and Quality Assurance
